## SUMMER HOLIDAY HOMEWORK

2022-23

***Dear Parents,***

*Holidays are the time when you can connect with your child in many ways. As parents are the first and the most important teacher for a child, we can encourage our child to participate in many educational activities at home and promote his/her quest to learn. Working together will not only help the child to build, learn and develop his/her skills but also strengthen your bond with him/her. Do help them but encourage them to do the work themselves. Originality, creativity and work done by the students themselves will be appreciated.*

***Dear Children,***

*Summer Vacation is a time full of fun and frolic, going for picnics, playing for long hours, exploring new places and much more. But dear children, there is a lot more to do to make your vacation more interesting and meaningful. We have planned some interesting activities for you. So get ready to enjoy your summer vacation!*
